Polar Bear Bag Charm

MINI BEAR TRIO | US crochet terms | one shared bear shell, three colorways

A mini snow-white bear made from the same complete bear body pattern as Panda and Grizzly, with a cream muzzle, blue scarf loop and optional hanging hardware.

Supplies

- DK/light worsted yarn in snow white and warm ivory
- Small amount of pale ice-blue yarn for scarf loop
- 3.25-3.75 mm crochet hook for a dense amigurumi fabric
- Polyester toy stuffing
- Black embroidery thread/yarn for face
- Yarn needle, locking stitch marker and scissors
- Optional small keyring or lobster clasp with reinforced hanging loop

Before you begin

US terms. Work in continuous spiral rounds; do not join unless instructed. Mark the first stitch of each round.

sc = single crochet; inc = 2 sc in one stitch; invdec = invisible single-crochet decrease over 2 stitches; MR = magic ring; ch = chain; sl st = slip stitch.

Head, body, ears, muzzle, arms and legs use IDENTICAL stitch counts for all three designs. Only yarn shades and finishing decorations differ.

If making these for a young child, embroider the eyes rather than using safety eyes; avoid loose accessories, scarf ties and metal hardware.

Assembly - same for all three bears

1. Sew the completed body below the head, lining the body center with the head center and placing the seam toward the back. Add extra stitches across the neck until the join is secure.

2. Attach the ears symmetrically on head rounds H06-H08; use the eye placement as a guide before fixing both ears.

3. Set the muzzle at the lower front of the head (around H11-H13); add the eyes around H09-H10, spaced about 7 head stitches apart.

4. Sew the arms to either side of body rounds B08-B10. Sew the legs along the lower front/side of B03-B05; check the bear sits straight before knotting threads.

5. Attach the optional tiny tail low on the back near B03-B04. Weave all ends through several neighboring stitches.

6. Keep the same hook, yarn family and stuffing volume for the three bears if you want them to finish at comparable sizes.

Polar finishing details

1. Keep the face snow white. Attach two white round ears near head rounds H06-H08, leaving a little space from the top center.

2. Center the ivory muzzle over head rounds H11-H13. Embroider two small black eyes across H09-H10 about 7 stitches apart, plus a black nose and simple mouth.

3. For a winter-blue scarf, chain about 26-32 stitches, try it around the fully assembled neck, then stitch the ends into a short tucked loop; avoid tight wrapping. Work 1 sc row back along the chain only if you prefer a wider scarf.

4. For an optional bag charm, anchor a short reinforced yarn loop at the top through several head stitches; attach a small split ring or lobster clasp to that loop. Test the join before hanging it from a bag. Hardware is not for small children.

5. Keep the exact head, body, ear, muzzle and limb stitch counts unchanged; winter-blue is an accent only.

Quick count check

Head 36-st maximum; body 24-st maximum; each ear 12; muzzle 12; each arm 9; each leg 9. The pattern is worked as separate pieces and assembled afterward.

Approximate sizing

The actual finished size changes with hook, yarn and stuffing. For consistent trio proportions, use the same hook and yarn weight on all three bears.
